

Commisioner Powell,

The fact that you have censored the Howard Stern Show clearly demonstrates a real concern about what is presented on the "public" airwaves. So I have no doubt that your commission, and you personally, are shocked and outraged that the media conglomerate Sinclair Broadcasting would arrogantly and brazenly attempt to undermine our democratic election process by airing partisan political propaganda without following the laws of equal time and full disclosure. In my opinion this is treason, and you, the citizen's employee, should protect our interests and enforce the law to prevent this from happening. Thank You for your prompt attention to this matter.
